To Review Plans

Ottawa Won't Promise Highway Assistance

OTTAWA, July 12 (CP)— Reconstruction Minister Howe said yesterday in the Commons he would make no commitment on the part of the government at this time as to whether or when the Dominion might be prepared to join with the provinces in completing a Trans-Canada highway.

MR. HOWE, acting head of the mines and resources department, spoke following a general plea by western members for such a highway. He said that the federal government would not "guarantee the members" a great deal of consideration would be given the matter before a decision was taken and if a decision was made to go ahead the western provinces would be consulted as to whether a southern or northern route would be followed.

The minister pointed out that the Dominion has from time to time given assistance to the provinces in road-building and he said the Trans-Canada highway was one of the list of projects the government had in mind as an employment-creating plan should Canada's employment diminish in the future.

Kidnap Britons

(Continued from Page 1)

was struck on the head and then a brutal blow of the fist to the forehead. The Tel Aviv-Italia highway five miles away. The kidnaped men were identified as members of the army's investigation group.

A JEWISH civilian, clerk at an army installation near Niatny, was seized with them but was left behind in an orange grove before the group had gone far.

Police said they believed the kidnappers might have been a Jewish underground set to get hostages for the lives of three Israeli soldiers. The hanging sentences were confirmed by the Palestine military commander this week and now are awaiting possible commutation by the high commission.

The arguments were identified as Clifford Martin and Merwin Paley. The Jewish civilian was named Weinberg.

Weinberg said in an interview that the two sergeants were "badly beaten" while they were in the car.

"MY SHIRT and trousers were stained all over with blood from their wounds," he said.

Weinberg said he was talking with the sergeants on the sidewalk when 12 men drove in a large sedan to make the seizure.

Trade Union Press Raves Soviet Govt.

MOSCOW, July 12 (AP)—The Soviet trade union newspaper Trud devoted a lead editorial and a column of type yesterday to criticism of government officials for inefficiency, rudeness to visitors, delay in carrying out decisions and lack of office discipline. Trud, one of the most authoritative of Soviet newspapers, called upon the government to clean house and open up better bureaucracy.

Showers Forecast Today, Tomorrow

Showers and thunderstorms are expected this afternoon and early evening and on Sunday afternoon. Winds are light and not much change in temperature is expected. The maximum temperature yesterday was 73 above at 4 p.m. and the minimum 56 registered 3 a.m. above at 5 a.m.

Estimated low temperature tonight is 50 above. Expected high temperature Sunday is 75 above.

Fatally Injured

BRACEBRIDGE, Ont., July 12 (CP)—Buried in new-mown hay while riding a tractor, a five-year-old Shirley Wroe was fatally injured yesterday by a tractor, which apparently ran over her as she was working.

Cotton was grown as far back as 1770 in Charleston, S.C.

Dnieper Dam Restoration Well Along

Restoration of the big Dnieper Dam near Dnepropetrovsk, Russia, left by the Germans with 14 piers blown out, is well along. The job, under way for three years, is expected to be finished by 1950, with power capacity greater than the prewar two and one-half billion kilowatts.

Restoration of the big Dnieper Dam near Dnepropetrovsk, Russia, left by the Germans with 14 piers blown out, is well along. The job, under way for three years, is expected to be finished by 1950, with power capacity greater than the prewar two and one-half billion kilowatts. Reconstruction machinery is shown moving along the dam's top.

Immigration

(Continued from Page 1)

for an early progression, now scheduled for early next week.

For instance, it gave third and final reading to bills implementing federal taxation agreements with seven of the provinces, implementing agreements reached with the four western provinces for refunding and adjustment of indebtedness incurred during the depression years, raising the seasonal indemnities of Senate leaders and changing the King's title as it applied to India.

However, the house declined to accept amendments made by the Senate to a government bill amending the Criminal Code and the measure was returned to the upper chamber. The probable course of government legislation in both houses to confer on a proposal acceptable to both houses.

3. THE DEBATE ON the Immigration Bill, which would give priority for all citizens of the United Kingdom, New Zealand, South Africa and Ireland.

2. There is free entry for all citizens of the United States and European countries may enter Canada without visas to relatives here who are in a position to assist them to get started, or if they are coming to work in agriculture, mining, lumbering or such other basic industries.

4. Other persons from such countries who have adequate means are admitted freely.

5. Individuals in the displaced persons' camps are admitted to Canada on application by relatives who are in a position to assist them in this country. This is to include the special quota of 10,000 which was authorized as to 5,000 on June 8, 1947, and as to a further 5,000 on July 1st last.

6. PERSONS applying for admission to Canada for the purpose of marrying a Canadian citizen of this country are admitted if the prospective spouse is in a position to maintain his intended wife.

7. From time to time movements of such as that of the 4,500 members of the Polish armed forces are approved.

8. Except for the wives and families of Canadian citizens of Canadian origin and similar relatives of Canadian citizens or residents of East Indian origin, there is no provision for Oriental immigration to Canada.

LONDON, July 12 (CP)—Ontario officials in London, admitting that some delay had been encountered through "red tape," today saw no reason why the planned aerial movement of 7,000 Britons to the Canadian provinces should not get under way Aug. 1 as scheduled.

"We see no reason why the scheme should be postponed," said Maj. C. S. Armstrong, agent-general for Ontario.

EARLIER, Armstrong said that due to delays necessitated by documentation and inquiries by British anxious to emigrate, the Aug. 1 movement might be less than anticipated.

The plan was announced last month by Premier Dewar following a visit to the United Kingdom.

Says Flying Discs Come from Comet

VANCOUVER, July 12 (CP)—A Vancouver scientist, affiliated with the University of British Columbia, said that he saw last night "a group of seven" so-called "flying saucers" shooting through the sky.

The scientist, who asked that his name not be disclosed, described the objects as being "saucer-shaped with little tails" and "exuding a fluorescent light."

He explained them as "remnants of a comet set jet disintegrated."

"They lasted only a few seconds, and dissolved when they hit the atmosphere," he said. "We are passing through the tail of a comet which has been here for 5,000 years. The slightest deficiency was not foreseen, none. No country could develop anything that fast."

Presents Papers

COPENHAGEN, July 12 (CP)—Dr. Henry Lauritzen, new Canadian minister to Denmark, today presented his credentials to King Frederik IX at Amalienborg Castle.

Alta. Tar Sands Will Be Valuable

(Continued from Page 1)

OTTAWA, July 12 (CP)— Reconstruction Minister Howe said last night in the Commons the time would come when Alberta's tar sands would be "very valuable" as a source of oil.

He spoke as the house gave consent to estimates of the mines and resources department.

While he spoke of the danger of Canada's oil resources becoming exhausted, he said that for the moment there was considerable encouragement over the discovery of oil in the new "Leduc" sector in Alberta.

During the war, said Mr. Howe, the Dominion spent \$2,500,000 in efforts to develop the tar sands which lie in the Athabasca valley.

J. MacNeil (PC—Toronto Davenport) urged the government to use every effort to find more oil and encourage its production. He understood there were great deposits of pitch-blende in the tar sands of Northern Alberta, and these also should be developed.

No Wives, Liquor, Smoking: No 113

VANCOUVER, July 12 (CP)—Alvyn Rudy Haabach, 31, a resident of the city's oldest district, today credited "no wives, no liquor, and no booze" as the secret of living to the ripe old age of 113.

Mr. Haabach, a retired millwright in General Hospital here last Tuesday, the centenarian-plus has his own teeth, wears no glasses, and admits only "a little" of alcohol.

Leduc Oil Wells

(Continued from Page 1)

of 20 feet from 9,040 and crude examined in the drill was said to be around the same high specific gravity shown in the company's other four producers.

It is expected the No. 5 well will be cemented and placed on production (not within about a week, officials said).

Derrick and equipment will be transferred to the company's No. 11 Leduc site, announced earlier in the week.

THE MORRISVILLE No. 1 well which blew out its drilling mud last week on striking a heavy gas pressure zone has at last been controlled. Crews are now repairing a 4,000 ft. line in preparation for re-mudding the hole and resuming drilling.

Other Imperial depths: Muskeg 2,332; Looma, 4,980; Paddle River, 4,500; Leduc No. 6, 4,932; No. 7, 4,484; No. 8, 4,238; No. 10, 7,098. Wind disrupted telephone lines prevented a morning report from Battle Lake No. 1 project.

Production: Leduc No. 1, 179; No. 2, 239; No. 3, 317; No. 4, 140 barrels respectively.

REGARDED AS THE well's first encouraging symptom, McColl-Frontenac's Ward Lake well, now only 100 feet in the Devonian, in a recent drill cut saw a small size of drilling mud cut with oil and gas.

Results of wells in this district will be awaited with keenness since they are situated about 16 miles south of the Leduc well of the already proven area in the Leduc section of the Edmonton oil field.

Drilling and exploration at all oil projects were continuing in the area.

Erection of a derrick and rig has been started at Varenko No. 1 well of Homestead Consolidation Oil Company Limited in the Leduc oil field and talking for the well section, the company announced.

At casing and provision has been made by the company for later delivery of additional casing. No tubing as needed for other wells, the announcement stated.

Cancel Debts

(Continued from Page 1)

berta, \$3,297,500, and British Columbia, \$5,342,130.

THE AMOUNT of relief indebtedness which will be refunded by a new issue of treasury bills as a source of oil.

The four western provinces, as a result of their experience in the 1930s, owe the Dominion some \$16,000,000. On the whole, the Dominion owes the provinces \$14,000,000 of this debt, no interest is currently paid. Part of the debt is payable on demand and the rest theoretically is payable at the end of one year but in fact has under present circumstances to be constantly renewed.

THE DEBT is carried on the books from year to year with little change in the amount. The Dominion plan for its retirement. When the new agreement is implemented, the Dominion will pay \$16,000,000 of the total debt will be paid off in cash and another \$3,000,000 will be cancelled. There is a further outstanding amount \$94,000,000 of treasury bills of which \$14,000,000 will bear interest of 2 1/2 per cent and the remainder, no interest.

Systematic provision, however, will have been made for retiring the whole of this amount in equal annual amounts over a period of 30 years.

MR. ABBOTT said the \$4,000,000, which would bear interest would be divided roughly as follows: Manitoba, \$1,000,000; Saskatchewan, \$1,000,000; Alberta, \$1,000,000.

He said the Dominion would pay Alberta and Saskatchewan \$3,000,000 each, with interest, in respect of their contribution to the system of their natural resources from the time of their entry into Confederation in 1905 until 1950 when they were turned over to the provinces.

Alberta Pension

share. Thus, Alberta, instead of paying 25 per cent of the basic \$20 a month pension, has accepted the new legislation and will pay 25 per cent of the basic \$20 pension, and will continue its supplementary payment of \$5 a month. The Dominion will continue to pay 75 per cent of the basic pension, as it has in the past.

WHEN THE PENSIONS were set at \$20 a month, the municipalities were assessed 10 per cent, and this was repaid to the province, which had paid out 25 per cent. There has been no increase in the assessment on municipalities.

Heretofore there have been about 14,000 blind pensioners in Alberta and with the addition of about 5,115 the total will be about 19,000 pensioners.

THE ADDITIONAL pension commitments will involve an additional outlay of about \$1,000,000 a year, Dr. Cross said.

With the 5,000 pensioners estimated to be added to the list, it is estimated that to hospital and medical care will be increased from \$500,000 a year to \$800,000.

The aggregate cost of pensions to the Dominion and provincial governments is about \$9,000,000 a year.

Dr. Cross said that machinery was being implemented to increase as from Jan. 1.

There are 53 species and subspecies of rays and skates in North American coastal waters.

Conference Opens

(Continued from Page 1)

tacks on the conference. He said the purpose was not to form an anti-Soviet bloc but to "put an end to the state of economic anarchy" of other countries and the nature of the problems involved, it had been decided to attempt a specific definition of income. So far as he knew, no country had achieved a satisfactory definition.

"ACCORDINGLY, the general income of the law is to tax all incomes and to indicate the general sources of income... that is, income from businesses, property and offices or employments."

"THE WHOLE OF Europe is present here but those who are not are entitled to speak in its name and to act for it. Reinforcements will arrive. I am sure, when our loyal cooperation has shown to all what is the true way of independence."

"The Italian delegation," he said, "is here to co-operate in every way possible with any proposal which will break down the present trade restrictions between our nations so that we may all recover together. This is the most crucial turning point in recent European history and we must not fail. If our plans fail our civilization will be plunged into a state comparable to that of 10,000 years ago."

BIDEAU praised the "noble" efforts of the United States for the offer of aid to a unified European program made by Secretary of State George Marshall, who called Marshall "a great man."

Marshall, he said, was "a summons we cannot allow to pass without betraying ourselves."

Aid to Europe Outlook "Grave"

WASHINGTON, July 12 (AP)—Some members of the United States Senate foreign relations committee yesterday called the European aid situation "rather grave" after they had heard State Secretary Marshall sum up American foreign policy in a long and secret session.

Senators said later the United States is watching a "devolution" situation on the Marshall aid plan before determining a course of action.

Part of the aid plan is to provide for 14 months, but reports were given even a vague idea of his testimony.

Later, some members gave their personal opinions, saying they took a "rather grave" view of the refusal of Russia and her satellites to participate in the aid plan.

They said this was splitting Europe into eastern blocs but that the door will be kept open lest Russia and the others decide later to join up.

Tax Act Changes

(Continued from Page 1)

bill, forecast in the last two government budget speeches, will bring simplicity and direction to the income tax Act.

AS ONE EXAMPLE of the simplification to be introduced, Mr. Abbott pointed out that the subject matter had been reduced to eight parts as compared to 18 parts previously.

In view of the reductions in "ministerial discretions" proposed, Mr. Abbott said it would not now be necessary to proceed with the income tax advisory board proposed in last year's legislation. He therefore would recommend

The Book of Knowledge

(Department: Things To Make and Do)

This and the following articles are taken from the Book of Knowledge and can be clipped for saving in a reference book.

THE DISAPPEARING QUARTER

This is a mystifying trick. Two images are needed for it—a handkerchief spread out on the table and a quarter laid in the middle of it. The corners of the handkerchief are folded down over the coin, and anyone is permitted to feel that it is still there. And yet at the conjurer's command, it passes through handkerchief and table and is found on the floor beneath. The handkerchief is shaken out and proves to be empty. This trick is

How to lay the handkerchief through it up to show it out. The handkerchief is then waved and drawn into the right hand and is quickly disposed of.

In the first place, you must have two quarters as nearly alike as possible. Take in your hand one of them beforehand to drop one of them under the table. The only other thing required is a little piece of beeswax the size of a pea. This you must knead between the fingers till it is fairly soft, and then press it against the back part of the lowest button of either your shirt or your vest.

To perform the trick, take the wax off the button, and press it against one corner of the handkerchief which you are going to use.

MONDAY: Origin of the Boy Scouts

Bridge

By William E. McKenney

Those who are interested in learning how to play better contract should actually lay the cards out on the table before reading a bridge article. How often people say, "I remember your face but I cannot recall your name." Similarly, if you want to remember a bridge hand, you have to see it in front of you. Then some day in the future a similar combination of cards will come up in a game, and you will remember the play.

In today's hand South should not win the spade suit but the third

round and then he should lead

the deuce of hearts. West took

only will play low, and the trick

is won in dummy with the queen.

At this point, South might lead a

small heart from dummy to his

jack. West will win with the ace,

and then it will be impossible for

declarer to avoid losing two spades,

two hearts and a diamond.

The correct play, after winning

the fourth trick in dummy with

the queen of hearts, is the five of

clubs to declarer's queen. Now a

small heart should be played on

which West must play the ace, so

dummy plays low. This gives de-

clarer a spade, three hearts, a

diamond and four clubs for his

contract.

"We should not be disappointed

because there is such an obvious

conflict of interest and so much

disagreement in the United Na-

tions Assembly," he said at his

inauguration recently as chancellor

of the University of Glasgow.

"Better the clash of tongues than

the clash of hearts. We are pro-

vider is not built in a day."

Next Week - The Fair

What the Stampede is to Calgary the Midsummer Fair is to Edmonton. It is the occasion when "city and country meet" as they do not at any other time, when many thousands of people from all points in central and northern Alberta, and large numbers also from points farther afield, assemble here. It is the one annual event that is staged under the city's auspices with the definite object of drawing visitors. Though less spectacular than the Stampede, the Fair has no less claim to the patronage and support of the people of its community. One, like the other, was born of conditions peculiar to the locality, keeps alive the memories of bygone days and relates the past to the present.

Edmonton was from the first a trading center, planted in a great area where mixed farming was the rule. Those are still the distinctive characteristics of its community. Its industrial development that has taken place here is the outgrowth of these primary conditions, to serve which the town came into existence. And it is still true that Edmonton will prosper or stagnate according as it serves or does not serve the commercial life of its community. The Fair is to it and the great northern whose trade moves through this focal point. The basic and permanent purpose of the Fair is to emphasize and encourage the carrying on of these two branches of business, whereby the city lives.

Time has changed the Fair. Attractions are now dependent upon to draw a crowd. But the exhibits are there for those who care—or can be induced to see them. In the stock sheds, the horticultural hall and the merchants' and manufacturers' displays, there is shown the progress that has been made and is being made in stock-growing, field and garden production, the up-to-date equipments of goods offered in the stores, and the rapidly growing variety of products of Edmonton industrial products.

Edmonton's welfare is very closely related to these basic interests and activities. Everyone who makes a living in Edmonton is able to do so because of the employment and business that flow directly or indirectly from developments along these lines. That is why the Fair deserves support by the people of the city.

To the outsider it offers a midsummer outing where business and pleasure can be combined. Aside from taking in the events and seeing the exhibits at the grounds, he can measure the growth of the city, renew acquaintances with friends from distant points, transact business conveniently at the shops and other establishments. The crowds who come to the city at Fair-time bear witness to the reality of these inducements, as well as to the platform and other attractions presented by the exhibitors.

Overcrowded Edmonton will be still more crowded next week. Whatever people in the city can do, in the way of accommodation or otherwise, to make the visitors feel at home and enjoy their stay will be appreciated by them and in keeping with the city's reputation for western hospitality.

Spiritual Rehabilitation

Last Sunday, His Majesty the King and the British prime minister led the people of Britain in a national day of prayer. In the great cathedrals of the cities and in the smallest churches of the country districts, full congregations implored Almighty God for guidance in the "trying days to come."

This day of prayer, it is explained, has divine significance than a mere petition for divine assistance in solving the problems of England. It is a day of spiritual movement, common to all Christian Europe, to find spiritual rehabilitation after the fratricidal assault of Hitler on the faith of the European peoples.

It is interesting to note that all Europe has come to the conclusion that all the devastation of war, none is more tragic than the spiritual collapse of the nations. In short, they have decided that no physical or social or economic rehabilitation will be permanent or effective unless it is preceded by or is coincidental with an equal spiritual rehabilitation.

And so Europe turns the more fervently to God.

The Hard Way

According to William Arthur Deacon, president of the Canadian Authors' Association, Canadian literature has at last arrived. In the past five years, Canadian writing has become popular abroad as well as at home and "never again will it be possible for a first-rate Canadian book to fail to find a publisher."

Mr. Deacon ascribes this upturn in Canadian literature to two factors: first, the improvement in the quality of Canadian writing, and, secondly, the better co-operation of publishers.

It is gratifying to hear this news from one who is in a position to know the facts. And it is, indeed, a change from the way that went up a few years ago about the lack of support accorded Canadian authors.

Many will suspect that the slow growth of Canadian literary success is the best thing that could have happened to it. Had Canadian publishers accepted the hysterical denunciations of literature as a decade or so ago and pushed into print, for mere patriotic reasons, the mediocre output of this country, Canadian literature might well have been forever damned.

But our literature has grown the hard and healthy way. As Mr. Deacon says, quality has improved.

Canadian letters now seem to be established on a basis of merit. It is the only sound foundation for the literature of any country.

Kingdom of Canada

Since the change in the status of India will necessitate new nomenclature in that country and cause alterations to be made in the King's style and titles, there is a general tendency to overhaul all the designations of national status throughout the whole British Empire.

Thus, it is planned to ask all units of the Commonwealth whether they wish to retain the title "dominion" or to choose some other description of their political status.

While the term "dominion" is applied to Canada, Australia, New Zealand, South Africa and Eire, only Canada and New Zealand actually have this word in their official designation. Australia calls herself a "commonwealth" while South Africa calls herself a "union."

The British government is said to be baffled to find a word to replace "dominion" which will not imply some derogation of sovereignty.

One would think there was very little reason to be baffled. In Canada's case, for instance, an amendment could easily be made by calling this country exactly what she is—a kingdom.

Canada is a free, independent and sovereign kingdom ruled by a monarch who happens to be King of Great Britain and various other units of Empire. Since the King is the sole link among these units of Empire, it might be a good idea to emphasize that fact in the style accorded this country.

Looking Backward

From The Bulletin Files

1887: 60 Years Ago

Sanford Fleming who is in England, will confer with the Imperial and Australian governments regarding cable service between Canada, Japan and Australia.

There was a large gathering in the skating rink on the occasion of the presentation of the Victoria Cross to Mr. MacDonald. The reception was very enthusiastic. Mr. John referred to the Victoria Cross as the highest honor that can be conferred on a Canadian. While difficulties would be met in floating the scheme in England, he had no doubt after the experience with the Canadian Pacific that they could be overcome.

1897: 50 Years Ago

Winnipeg, Glenora, the Montreal yacht, beat the El Hierro again yesterday, winning the Sea-Wing trophy.

The hearing on the commission will consist of Justice King of the Supreme Court of Canada and Justice Gauthier of the Quebec Court of Appeal. The Dominion Government is going to be asked to take a plea on the question of prohibition. And on June 17, the hearing will be held in the hall and the inhabitants of Pembina.

1907: 40 Years Ago

The report of Mr. Justice Harvey in regard to the isolation hospital was laid before city council this evening.

The regular passenger train of the CNR west bound jumped the track at Oliver this morning, three or four coaches being landed in the ditch. No one was injured.

Messrs. Reid, Binet, Carmichael, McKillop and Peacock, the four managers, were in attendance at the annual territorial matches at Calgary.

1917: 30 Years Ago

Baltimore: It is known that a quantity of Canadian nickel has been taken aboard the Deutschland.

THE THRILL THAT COMES ONE IN A LIFETIME - by Webster

U.N. Versus Yes

BY DOROTHY THOMPSON

of a series of atomic explosions in deep water—or on land possibly containing uranium, might be. No one even says definitely whether the atomic bomb is a new weapon in the arsenal of the world, or whether it is a new weapon in the arsenal of the world, or whether it is a new weapon in the arsenal of the world.

THE LEADERS OF THE world must recognize that all nations must live under law; that there must be one single legitimate aim in the world—namely, to secure "peace, but law—and without it, there is no peace."

ALL "IDEOLOGUES" WERE put to the apocalyptic fact that man was in possession of the means to intervene directly with nature and end all or most of human life in the course of a few weeks.

THE atomic bomb did not enter into the considerations of Karl Marx or Lenin. Its discovery, along with many other secrets of scientific destruction, has thrown out the validity of the old philosophies. The planet may be destroyed or reduced to ungovernable chaos by the means that the Communists have realized or in the

Report from Spain

BY ELMORE PHILPOT

The truth about the Fascist dictatorship in Spain has never been told with such clarity as the present report from Spain, by Elmore Philpott, who has been in Spain for some time.

Mr. Philpott was Press Attaché at the U.S. Embassy in Spain for some time, and has written a devastating indictment. It is the most effective because it is a personal attack on Franco, Catholic, and Fascist, and is based on a personal knowledge of the situation.

He has written a devastating indictment. It is the most effective because it is a personal attack on Franco, Catholic, and Fascist, and is based on a personal knowledge of the situation.

Record Crowd Attends Stampede at Killam

KILLAM, July 12: A record crowd estimated at 5,000 persons attended the fifth annual stampede and baseball tournament held on the Killam sports grounds recently. Proceeds from which will go into the special fund to erect a Memorial covered skating rink.

Perfect weather helped to make the day a big success. Six teams from Alliance, Forestburg, Galahad, Lougheed, Sedgewick and Killam took part in the baseball tournament with Lougheed taking first money. The team from Alliance came second.

The feature attraction, the stampede, provided many thrills and spills for the spectators. The big event for this year was the chuck wagon race which was won by the Waggs outfit from Gadsby, which did the half mile and figure 8 in 28 seconds. Winners of the other stampede events are as follows:

Saddle bronc riding: 1. Bill Saville, Hardy; 2. Ernie Dorn, Bruce; 3. Harold Whidden, Killam; 4. Keith Charn, Bruce. Bareback bronc riding: 1. Alex

ing: 2. W. Maiter, Halkirk; 3. D. Henderson, Phillips. Charol Race-1, Alf Taylor, Alliance; 2. Bill Wags, Gadsby; 3. D. Henderson.

Grandstand entertainment was provided by Frank Herman and his troupe of entertainers from Edmonton.

Name Principal

WESTLOCK, July 12.—R. F. Staples, formerly of Hardy and high school, it was announced this week by the school board.

He will take up residence here this fall with Mrs. Staples and their four children.

Summer Camp

VILNA, July 12.—The annual district girls camp, which opened July 2 at Long Lake, came to a close yesterday. The camp was conducted by the United Church. Girls attending the camp were:

Edmonton, Smoky Spedden, Wase, Cold Lake, Brouse, Badway, Kidman, Bonnyville, Pooksville and Vilna.

Chief director of the camp was Nina Sands, while Doris Kilgus was director. Attending Misses were: Laurel Armstrong and Myrtle McCreight, both of Smoky Lake, and Miss Stewart of Bonnyville. Chief camper was Doreen Steinhauser of Brouse, and chief hostess was Martha Matheson of Kidman.

Various activities of the camp included salubrious of the dawn, morning worship, swimming and other sports.

Storm at Holden

HOLDEN, July 12.—One of the worst storms ever recorded in Holden's history, hit this district recently. A hot day preceded the storm. The storm started about 5:30 p.m. and caused damage amounting to thousands of dollars.

Windows were shattered, trees blown down, and crops for miles around were damaged. The new Holden high school had 123 panes of glass broken, as the storm swept through the town. Many other windows were also smashed from the hail storm, which many claim were as large as golf balls.

Attend Shower

KILLAM, July 12.—About 30 members of the C.W.L. gathered at the home of Mrs. V. E. Juntik Sr. recently to attend a shower in honor of the former Miss Evelyn Simon who married Joe Hurst of Prague recently. Friends of Mrs. Simon presented the gifts to the bride in a decorated chalice basket. Miss Simon thanked the guests suitably.

Two social gatherings were held recently at the Roy Parker home, bid farewell to Arlene Parker.

Mike Boyce Shows Winnipeg Animal

OLD, July 12.—Outlasting a large field of 130 calves, a Hereford bull by Michael Boyce of Olds, captured the grand championship in a successful calf club fair sale held at the mayor's hall last week.

In coping the major honor, Michael Boyce was awarded with a copy of the Winnipeg Board of Trade. Other winners were: Billie Francis, Carstairs; Harold Schickel, Carstairs; Annie Hepper, Madden; and Dan Robertson, West Edmonton.

The prize winning Hereford was sold to The T. Eaton Company store of Calgary for \$3,000.

Five city clubs, Avondale, West Didsbury, Carstairs, Eagle Hill, Madbury, and the club in the competition. The club in the competition, and are under the supervision of Hugh McPhail, O.S.A. district agricultural.

who has left Killam to take a technical course at the Manitoba hospital. Members of the Rehoboth Lodge, Presbyterian Young People and other young people of the community made presentations to the grand of honor.

Children's Pool

LOYDMINSTER, July 12.—An initiative step toward a children's playground in Lloydminster, the Kinsmen club has been the last few weeks building a cement paddling pool for the benefit of the young children of the town and district. The official opening of the pool was held last evening, and a large number of young citizens of the town and district were on hand to enjoy the fun. The pool is located in the area just north of the Civic administration building on Broadway.

Hail Causes Damage

WESTLOCK, July 12.—Crop loss of 50 per cent and more was sustained in the Westlock-Vilna region this week when a sudden hail storm struck a small area. Felled the state of eggs smashed down the grain and also much damage to windows in the area.

Leaving Killam

KILLAM, July 12: Rev. Mr. and Mrs. Woollett, who have been in the Strum-Killam United Church pastorate for several years, were honored at a social held after their farewell service in the Killam age recently.

During the program several members of the congregation expressed regret at the departure of Mr. and Mrs. Woollett. In appreciation of their services while at Killam the president of the Women's Guild, Mrs. W. Bennett presented the guests of honor with a silver tray and sugar bowl, and cream pitcher.

The Woolletts will make their new home at Essex, Ont.

Best Collection

OLD, July 12: Compiling a total of 114 points for a collection of handicrafts, the Eagle Valley W.I. captured the silver cup, donated by Mrs. Murdoch MacArthur, Olds, at the 31st annual county-wide conference of the Olds West W.I. held here recently.

Individual honors went to Mrs. J. A. Leskie, who collected 37 points.

An increasing number of W.I. girls clubs have been recorded in the Olds west district during the past year. A number of newly organized clubs are: Happy Bluebirds, Merry Westerners, Lucky Star, Bluebirds, Beavers, Maple Leafs, and Carrington.

New Minister

OLD, July 12: The Rev. W. H. Moss, new pastor of the Knox United Church in Olds was officially inducted into his new charge here recently. More than 75 parishioners gathered at the church to welcome the pastor, formerly of Drumbellier, and to watch the special ceremony.

Ministers who conducted the service were the Rev. G. Phipps, Carstairs, and the Rev. W. Whyte, Smith, Didsbury. After the ceremony, a reception was held.

Plan Boys' Camp

VILNA, July 12: A boys' camp to be conducted by the United Church, will open at Long Lake very soon. Registrations are to be made by Mr. Thackeray at Saddle Lake. The camp will close Aug. 21.

Japan's Fiscal Needs Doubled

TOKYO, July 12.—(AP)—The Japanese government staggered the Diet (Parliament) yesterday with a request for 100,000,000,000 yen (\$2,000,000,000) in special appropriations—virtually doubling the size of the present budget. Officials insisted the rising spiral of government costs necessitated what would be an all-time record outlay in Japan.

Dish Strawberries Brings \$95 Bill

LOS ANGELES, July 12.—(CP)—Bel Brown really likes strawberries. To the tune of \$95. He couldn't remember whether his diet allowed him to eat the berries. Since the copy of his diet was in London, he made a Transatlantic call to his wife, who told him he could have them. The cost of his scrumptious breakfast: \$1.20 for the strawberries, \$94 for the phone call.

Start Work Soon Killam Curling Rink

KILLAM, July 12: Work will commence soon on the construction of a new curling rink on a favorable site near the highway. The finance committee, under the chairmanship of A. U. Lebel, announced recently that the cost of \$60,000 had been reached.

G. J. Davy, manager of the treasury branch and E. F. Fene were appointed trustees in charge of collecting.

The contract for the moving of the old rink and construction of the new has been let jointly to N. Byrdson and F. Bouscasse.

Westlock Grain Agent to Retire

WESTLOCK, July 12: After 30 years as a grain buyer, Frank Summer, agent in Westlock for the Alberta Wheat Pool Elevators, retires this month. He will be succeeded by B. Beasly, former Dapay agent.

Mr. Summer came to Canada in 1904 from Liverpool, Eng., and for a time was agent for the Security Elevator Co. at Duff, Sask., later accepting a post with the Pool at Semath in 1928. He moved to Westlock in 1929.

From records he kept during his years as an agent, Mr. Summer calculates that he has taken in and shipped out 7,700,000 bushels of grain, enough to load 4,000 railway cars which would make a train more than 35 miles long.

Forses Election In Fall of 1948

OTTAWA, July 12.—(CP)—Take it from Senator John T. Hagg, Progressive Conservative leader in the Senate, as a certainty. There will be a Dominion general election in the fall of 1948, and as a result, the next session of Parliament will be "bummering".

He made these statements before the Senate yesterday and was promptly asked by Senator James Munnick (Liberal) if that is a threat, or a promise? "It's a prophecy," said Mr. Hagg, "but years in this business you learn to know these things."

Anaesthetic Blast Kills Girl Patient

NEW ORLEANS, July 12.—(AP)—An anaesthetic explosion in an operating room at Baptist hospital killed Lois Ellsworth, daughter of a retired banker, and injured four others yesterday. The explosion occurred while Miss Ellsworth was being given an anaesthetic preparatory to the extraction of two teeth. It is believed the explosion damaged her lungs. Cause of the blast was not determined.

Ambulance Cannot "Crash" Red Light

TORONTO, July 12.—(CP)—An ambulance has not the right to pass through a red traffic light even if on an emergency call and sounding its siren. This was the finding of Mr. Justice P. E. F. Smyl Friday in a ruling on the decision of a London, Ont. court which has dismissed a dangerous driving charge against an ambulance operator whose vehicle crashed at an intersection.

Intoxicated Man Drowns in Stream

TORONTO, July 12.—(CP)—George Adair, 32, of Hamilton, was drowned in 18 inches of water in a pond in High Park yesterday. Police said investigation showed two men had been drinking on the bank of the stream and that Adair, while wading, had fallen. Due to an intoxicated condition he was unable to move.

See No Honeymoon Windsor's Ranch

CALGARY, July 12.—(CP)—If there is any possibility of Princess Elizabeth and Prince Philip coming to the Duke of Windsor's High River, Alta., ranch on their "only moon, local administrators of the property know nothing about it. Since the announcement of the Royal engagement, inquiries from newspapers in all parts of Canada have been directed into Calgary to see if the KP Ranch was being readied for the young couple.

No such plans have been made and there are no indications they will be made, state Calgary representatives of the duke. In the first place, they point out, it would take months to plan the royal wedding let alone perfect details of a honeymoon visit abroad. Alberta weather would not likely be at its best for a visit to the ranch in the winter time and there has been nothing to indicate that

SEEK CONTACT WOMAN

The Canadian Red Cross Society, 105 Taylor Building wishes to contact Mrs. Marie Kravchuk, who came to Canada in 1927. Her maiden name was Marie Krejcarova, and the last known address was Edmonton. Inquiries to Thomas Krejcar, Czechoslovakia.

The young princess would want to pay any extensive visit to a ranch, even if a "no" of Canada were arranged.

Calgary, Alberta

1. Audit of the Company's books and affairs will be concluded in a few days, at which time an Annual General Meeting will be called.
2. East Leduc South Brazeau No. 1 well was spudded in on June 28th, and is now drilling below 2,100 feet. This well is located in L.S.D. 8, Sec. 2, Twp. 50, Range 25, W.4, being three-quarters of a mile directly south of the Imperial Leduc No. 2 producer. South Brazeau Petroleum Limited holds a 50 percent net interest in this well and a 50 percent net interest in the adjoining L.S.D. 7.
3. Your Company has acquired the S.W. 1/4 Sec. 9 and the S.E. 1/4 Sec. 8, Twp. 49, Range 24, W.4th, adjacent to the New Ranchmen's Leduc No. 1 location.
4. Your Company has acquired 20,000 acres in a permit, giving checker-board coverage in Twp. 41, Rge. 21, 22 and 23, and Twp. 42, Rge. 21, and Twp. 40, Rge. 22. W.4th. Geological and core drilling work is now under way.

● This announcement is for the information of shareholders, to bring them up to date pending the General Meeting, and should not be construed as an offering of shares, nor is it intended to influence the sale or trading of shares of the Company.

(Signed) FRED NYE,
Secretary.

Growing Too Many Plants Ruins Home Garden Harvest

BY DOUGLAS GREEN
WINNIPEG, July 12.—(CP)—Of flowers of Canada's municipal governments swing Friday in the final sessions of their 1942 annual conference after placing on record their views of the financial situation affecting the Dominion, the provinces and the municipalities.
Vancouver's Mayor G. G. McGee told delegates considering problems of municipal finance yesterday that Canada was short of co-operation among the three governments, but not short of money. Should a depression occur, it must be charged to governmental incompetence and had administration.
"If the federal government won't co-operate with other governments and private enterprise, then the whole system of democracy is in the same danger as it was before 1914 and 1920," said Mr. McGee.
The federation endorsed the report of its municipal finance committee, which recommended the prompt enactment of a policy of federal-municipal aid, and will inform the Dominion government that federal-aided social welfare measures, housing and unemployment relief are essentially a national financial responsibility as well as a legislative one.

It hurts to destroy your plants, but ruthless thinning is necessary for good yield.
Chief cause for lack of quality in home garden vegetables, grown in fertile soil with good care, is crowding, and crowding is due to failure to thin out the row, so each plant has sufficient room to develop properly and failure to thin out is often due to emotional resistance on the part of the gardener, who cannot bring himself to destroy the precious seedling plants which have grown from the seed he (more often she) has sown. This must be overcome.
Another reason may be the work involved, when seeds have been sown too thickly. It is not uncommon for ten times the required number of seeds to be sown, so that ninety per cent of the seedlings must be pulled up. That is obviously excessive. The rate of

Query Outcome Of Nfld. Parley

OTTAWA, July 12.—(CP)—Speculation began to emerge last night among sources close to the government on the outcome of talks between Canada and Newfoundland on the possibility of the island entering Confederation.
One source said good progress was being made in the discussions which would continue for another two or three weeks, but added that it was too early to reach a conclusion as to what was the mind of the seven Newfoundland delegates.
One difficulty was that the island had no government in which definite confederation terms could be offered.
The source speculated that when the people of Newfoundland are asked to vote in a referendum on future form or forms of government a question on the ballot paper might read:
"Are you in favor of confederation if satisfactory terms can be arranged?"
If this carried then some form of government would have to be appointed to negotiate the financial terms with Canada.

Officers Elected At Mayors' Meet
WINNIPEG, July 12.—(CP)—Mayor Ray Forbes of Fredericton Friday was elected president for 1942 of the Canadian Federation of Mayors and Municipalities, concluding its 10th annual conference. Mr. Forbes, who is indisposed, was elected in absentia.
Other officers elected were: Honorary president, Mayor Garret Coulter, Winnipeg; first vice-president, Mayor Lucien Borne, Quebec City; second vice-president, Mayor Sam Lawrence, Hamilton; third vice-president, Mayor George MacLean, St. Boniface, Man.; fourth vice-president, Mayor A. J. Mason, Springfield, N.B.; fifth vice-president, Mayor G. G. McGee, Vancouver; honorary secretary, Mayor A. W. Macpherson, Saskatoon; honorary treasurer, Mayor Harry Ainlay, Edmonton.

SPORTS

HAROLD DEAN, Sports Editor

PRESENT INDICATIONS ARE THAT THE Brooklyn Dodgers' school which commences at Renfrew Park next Tuesday will prove extremely popular with the embryo baseball talent of northern and central Alberta.

Classes will open at 10 a.m. and the instruction will continue through to 5 p.m. for the three days. Individual as well as group instruction will be offered and a special invitation is issued to managers and coaches throughout the entire province, with particular attention to the handling of ball clubs in addition to actual playing.

The school is free and the spectator public also is invited. Out-of-town boys who are signed will have their expenses refunded and all who participate will be registered and catalogued.

First Major League School

THE FIRST SCHOOL TO BE STAGED by a major league ball club in western Canada will be under the personal direction of Howard Hask, chief scout for the Brooklyn club in the Pacific northwest.

George Welch, a pitcher formerly with Mobile, Ala., and Montreal Royal, along with Ken Johnson, high school coach at San Bernardino, Calif., and Nick Mariana of Great Falls, Montana, are included on the staff.

S. O. Sheriff, manager of the Yellowknife ball club, has written for games with the Edmonton Big Four clubs and an invitation to participate in the big Indian Head, Sask., tournament also has been received.

Unfortunately Big Four schedule obligations make it impossible to accept and letters of regret have been dispatched. Yellowknife also had been hopeful of going to Calgary and the town would have been flown out from the north.

New Strikeout Mark to Shoot At

STAN CURRY'S MARK OF 15 STRIKEOUTS registered against Calgary's Purty 99 Friday night better by the two record set up at Renfrew Park by Forrest Hunter with the Cubs as opposition on May 21.

Prior to that May 16 to be more precise, Tony Maza of the Purty club had fired the ball past 19 Cubs and he duplicated the performance here on May 20, when he retired 17 Eskimos on strikes.

Curry usually gets several opposing batters into the strike method. He whiffed 11 Eskimos on June 10 and he sent nine of the Purty squab back to the dugout on June 15. Johnny Gray of the Eskimos fanned 10 Cubs on June 17.

The Cub's left-handed hero has two shutouts over Purty, having blanked the Calgarys 3-0 here on June 15. He held the Eskimos runless twice, 3-0 on June 16 and 2-0 on June 18. He was beaten by Huddell last Sunday and he also failed to go the route against Eskimos July 1, making only two strikeouts out of his last six starts.

He's Small, But He Delivers

TONY CHULLA, SMALLEST PLAYER in the Big Four, has been playing grand ball for the Cubs all season and is one of the most effective men in the circuit in addition to being the fastest.

The two plays he made on ground balls in the sixth inning last night and which robbed Walt Gully and Tony Maza of hits, were on a par with his performance last Sunday when he came up with the ball on Alex Ulfmark's drive.

Dick Nunn, Purty left fielder, went back almost to the scoreboard to make a running-away catch of Doug Lavelle's long smash in the fourth inning and two men were on the paths at that time. Army Martin threw out Maza after making a beautiful save in the second game drive.

John Dwyer stole last night that work would commence next week on the erection of the steel poles for Renfrew Park's new lighting system and that it was expected the plant would be in operation about the end of the month.

City Open Arranged for Aug. 21

Ivor Williams Heads City Golf Association

Ivor Williams was elected president of the Edmonton Golf Association at a meeting last night, which also made plans for the city open championship at the Highlands course August 21.

Mike Zewenik was chosen vice president and Herb Huddell, who has been in the city since he turned as secretary-treasurer, Reg. Jennings is honorary president.

THE OPEN is designed to give every type of golfer a chance to bring home a prize. Besides the championship there will be events for players with handicaps of 0 to 6, 7 to 12, 13 to 17, and 18 to 24.

Professionals will be gunning for \$100 prize. The amateur division is divided \$60 for the winner and \$40 for the runner-up. Approximately \$100 will be set aside for prizes for the amateur contest.

Registration will close Aug. 21. The tournament will serve as a warm-up for the provincial open which will get underway Labor Day week-end at the Edmonton Golf and Country Club.

2nd prize \$100.00 3rd prize \$75.00 4th prize \$50.00 5th prize \$25.00 6th prize \$10.00 7th prize \$5.00 8th prize \$2.50 9th prize \$1.00 10th prize \$0.50

What turned out to be the winning run got to second base as Bobby Doerr, batting in safety on a steal in sixth inning of All-Star game at Wrigley Field, Chicago, Eddie Stanke, Brooklyn.

Blackwell Teams Braves for 15th Hurling Triumph

YANKS SCORE 10TH STRAIGHT VICTORY; GIANTS WALLOP OUT SIX HOME RUNS

NEW YORK, July 31.—The New York Yankees stretched their winning streak to 10 straight last night by knocking off St. Louis Browns 3-1 and increased their lead over both Detroit and Boston to an even 10 games in the American League pennant race.

Outfit six to three, the Yanks made economical use of the trio of Ellis Kinder and enabled Allie Reynolds to post his ninth win.

Little Subby Overmire saved Detroit's finger-clip on second place by shutting out Boston 2-0 after the Red Sox had defeated Dwyer Trout in the 43rd over.

The Tigers' curlew southpaw allowed only four singles while Hoot Evers, back in the lineup after being beaten by pitched ball, singled home two runs.

CONA MACK'S Philadelphia Athletics, bounding back from a no-hitter and a double loss the previous night, rallied to beat the Red Sox 4-2 in the 10th inning.

At Chicago, Washington Senators moved into sixth place by trimming the White Sox 4-3. Walt Matern pitched six innings and yielded four hits to gain his seventh victory.

Over in the National League, Vic Lombardi pitched a 10-inning game of the season for Brooklyn and the Dodgers won 3-1 over the St. Louis Browns.

St. Louis' pitcher, Dizzy Dean, earned his 10th victory by beating the Cardinals 3-1 in the 10th inning.

At New York, the Yankees' pinch runner, followed an earlier error by the Browns' pitcher, to score the winning run in the 10th inning.

At Chicago, the White Sox, who had been leading the league in the 10th inning, were defeated by the Yankees 4-3.

THE NEW YORKERS bounced back with a victory over the St. Louis Browns in the 10th inning, winning 4-3.

At Philadelphia, the Phillies, who had been leading the league in the 10th inning, were defeated by the Yankees 4-3.

At St. Louis, the Browns, who had been leading the league in the 10th inning, were defeated by the Yankees 4-3.

At New York, the Yankees, who had been leading the league in the 10th inning, were defeated by the Yankees 4-3.

At Philadelphia, the Phillies, who had been leading the league in the 10th inning, were defeated by the Yankees 4-3.

Curry Sets Record By Striking Out 15

Cubs' Southpaw Blanks Purty For 4th Shutout

Setting a new strikeout record for the season of 113, the Cub's Stan Curry blanked Calgary's Purty 99 club 6-0 in a Big Four Baseball League game at Renfrew Park here Friday night.

It was the fourth shutout for the Cub's lefty in his last six home starts and the victory moved him into the third place ahead of the Calgaryans, whom they are meeting twice today and again tomorrow afternoon.

ONLY 36 MEN faced Curry during the entire nine innings and of those, fewer than 10 were hit. Purty were equally split amongst Weaver, Neom and O'Rourke.

Three strikeouts were gathered off Curry in the seventh frame, but in that inning he struck out a pair. Calgary set one hit in the second and two in the first canto.

CURRY SHOWED little partiality in choosing his strike and victim, for the only two of the 13 appearing in the game were hit.

Curry's six runs were earned and both were charged to big John Carpenter, the Cal's starting pitcher who got hit by a home run in the first.

CARPENTER had yielded just one hit until after two outs in the fifth, when successive strikes by Curry and Weaver, and Chulla gave the Cub's a 1-0 lead.

Then Nick Maskevich, first up in the sixth, clubbed the ball over the right fence for his third hit in a row.

Curry, who has just joined the Purty club from Seattle, took advantage of the run into serious difficulties after getting two down, an extra base, Curry helped.

Curry was safe on a bad throw to first by O'Rourke, but he escaped by smacking one into center, scoring Vicks. Then, Marco singled, Dawson doubled, ending Curry home, and Chulla scored.

Curry was the third Cal pitcher and the Cub's got only one hit off him.

Chulla came up with two beautiful plays in the sixth, making a diving stop of Huddell's drive in center, and then he threw out a runner on the ball on the fly.

Curry was the third Cal pitcher and the Cub's got only one hit off him.

Curry was the third Cal pitcher and the Cub's got only one hit off him.

EAC Juniors Win 4-3 Clubmen Knock Leafs Out of First Place

Rallying behind the crafty twirling of Don Haliburton, the EAC aggregation picked up their third victory last night, when they staved off a determined Maple Leaf bid in the final inning to emerge victors by a 4-3 count in a closely matched men's junior baseball fixture at Clarke Stadium.

The loss dropped the Leafs into second place, a half game behind the Canadians, and lightened the junior race, as both sides and CNR are within striking distance of the lead.

WALLY YAKIMOWICH, Maple Leaf armorer with good assortment of stuff, allowed four hits and struck out seven, while Haliburton went the route, giving up six safeties and fanning nine.

Colin Kilgus, stringer down to deep centre, which scored Jim Stewart and Wally Laford, started the away-afire, rolling in the opening canto.

However, the EAC line evened the count in their turn in the first inning. Passes to De France and O'Connor, who Henry Henry closed the game, were within striking distance of the away-afire, rolling in the opening canto.

STAN CURRY, Cub registered and shutout specialist, posted strikeouts against 11 different Purty batters in marking up his new record of 15 Friday night while securing the fourth shutout in his last six starts.

Fear Return of Grim Days of 30's

Union Tractor, Haywards Score

NEW YORK, July 12 —(AP)—Assault and Stytle bring their alternating act for racing's money-winning championship back to Jamaica today in the \$50,000 Butler handicap, and if Assault can carry a loaded beer truck as easily as the last time they tangled, he'll probably win the title back—this time for keeps.

Newsom was Griffith's favorite pinocle partner.

Paul Gallico

Says:

The appalling number of casualties in the ranks of my friends following the long Fourth of July weekend after which they returned from their three-day busk with Nature blistered, burned, bitten, lame, itching and sore is what is leading me to prepare this little brochure. To be included with your Saturday paper at no extra charge, entitled, "How To Survive Your Vacation."

It is addressed to males who are trying to keep their balance on the greased incline of forty, and does not apply to ladies, as I have long since given up trying to tell anything to ladies of any age.

The point of this essay is, my brothers, that you are about to forsake the comparative safety of your offices, where you have been stagnating all winter, during which time your exercise has consisted of revolving your swivel chair a quarter turn from right to left or vice versa. You are heading for vacation resorts where incalculable hazards and dangers await you—the golf course, the tennis courts, the bridge paths, the beaches and the beautiful, beautiful country in itself a place of a thousand dangers. If you do not heed the words of Old Man Gallico, the chances are six-to-one-and-seven that four days after arriving wherever you are going you will be in bed or on crutches or carrying something in a sling.

Avoid Contests

One hardly knows where to begin in this self-appointed crusade to preserve you for another year at the treadmill, but I guess maybe the most important thing to make you promise to keep away from Junior at contests of skill and endurance. The hospitals will be full of victims of gentlemen whose last coherent words were, "Come on, son, I'll take you on and show you that I'm just as good as I ever was."

Face it, chum, you ain't Junior's muscles are made of leather, steel, whiplash, and copper wire. You still make for laudable lumps

(Continued on Page 12)

Animal Exhibits To Be Outstanding

The greatest display of livestock ever shown at the Edmonton Exhibition Association's annual summer fair will be on view throughout next week at the exhibition grounds.

More than 600 head of livestock valued in excess of \$500,000 will strive for prize money offered in different classes and entries have been received from all western provinces, Ontario, Quebec, and some of the states of the United States.

Small space was at a premium at the exhibition grounds Saturday as entries poured in from local points, and from the Calgary Stampede.

More than all livestock classes will start Tuesday with E. Arnold, Shool Lake, Manitoba, judging the Clydesdale horse classes, George Fraser, Tait, Saskatchewan, the Percherons, and the two judges collaborating in judging of grade and harness horses.

Judges in the cattle classes are Shortliff, William Cameron, M.D., Sherburne, Hereford, Charles Turner, Salmo, Arm. B. C. Aberdeen Angus, S. J. Henderson, Lacombe, and Ted Pull, Prov. J. Sackville, Edmonton. Dairy cattle judges are Agathe and Jersey, Fred Thompson, Fairlight, Saskatchewan; Holstein, J. A. Hay, Colony Farm, Essonville, B. C.

N. J. Shupland, Rochester, will judge sheep classes, and Alex McPhail, Brandon, Man., swine classes. Thursday afternoon at 2 o'clock in front of the grandstand, the whole teams entered in the show will be judged, and on Wednesday afternoon at 3:15, the four horse teams will be judged.

Friday morning at 10 a.m. a grand parade of all prize winners in the livestock classes will be held in front of the grandstand. A commentary on the different breeds will feature the parade.

Porcupine Invades Woman's Garden

A policeman's law can sometimes be more effective than a porcupine's quills. A woman's garden in the west end of the city was invaded by a porcupine on Friday. The animal was seen in the garden of Mrs. H. J. Fisher, 1023 7th street, Constable Dick Arentz and Jack Moore, who were on duty, took him to the wooded section of the city near the Dawson bridge and released him to find his way home.

Shortly after this about 800 pounds of steak on the hoof headed north out of Canada Packers Limited and police were called to try and make a capture. An official of the packing plant said a big red, hornless cow, with a mean disposition made a charge from a truck while being unloaded at the plant.

Rural Alberta Presents a Wealth of Beautiful Scenery

Edmonton is set in one of the best and richest agricultural areas in the world. Alberta field crops, chickens, turkeys, eggs, butter, bacon and other farm products are in demand the world over. The records show that they are unsupervised anywhere. But in the midst of the whirl of stepping-up production, the Edmonton district still presents scenes of quiet country life, scenes such as prevailed half a century ago. Above is a typical scene, taken between this city and St. Albert, wherein is depicted a setting that one visualizes when talking of "getting back to nature" or "going to the country for a holiday."

Motorcycle Rider Hurt in Accident

Operating his motorcycle along Jasper avenue about 6:15 p.m. Friday, Edmund Klatt, 1294 132A street, became involved in an intersection collision with an automobile and suffered injuries to his left arm and wrist. George Demars, 9461 106A avenue, a passenger on the motor bike, was unhurt.

Fan, Cycle Stolen

Ban on Highway

Due to recent heavy rains, a ban has been placed on Highway 28 between Wilton and Cold Lake. It was announced Saturday by the Highway Traffic Board.

Public Lecture

Dr. Allen Dunham, head of the biology department, Wooster College, Wooster, Ohio, will give a public lecture "Reflections on the Aftermath of World War 2" at the University next Thursday. Dr. Dunham visited Edmonton last summer and gave a lecture on international affairs. She is a graduate of the University of Alberta. The lecture, free of charge, will be given in Room 142, medical building.

Expect Record Crowds To Attend Exhibition

The greatest crowds on record are expected to attend the 60th annual summer fair sponsored by the Edmonton Exhibition Association which opens Monday morning and will continue throughout the week.

Publish Souvenir Program of Fair

An artistic souvenir program of the Edmonton Exhibition Association, a souvenir for the summer fair will be published by the Y.M.C.A. Club of Edmonton, and will be on sale at stores and at the exhibition grounds next week.

It contains numerous interesting articles on the city's growth, and the expansion of the summer fair from a small moving held in the city to the present day. The program will be used to provide facilities for the presentation of the town's work program in the present new Y.M.C.A. building.

Workmen were busy throughout the grounds Saturday putting the finishing touches in many details designed for the enjoyment of visitors to the fair.

Hundreds of flags were being run up in mast heads, the grounds presented a splendid vista with the blue, white and red flags flying the breeze above the gleaming white and green buildings, and lawns made vivid by recent rains.

More than 500 technicians will be quartered at the track for the six day race meeting, and some of the finest stabling racks in Canada and the mid-western United States will be competing for the greatly increased prize money offered.

Need 12 Years to Build West Water Projects To Cost \$100 Million

LETHBRIDGE, Alta., July 12 (CP)—Agriculture Minister Gardiner, in an address last night at the inaugural meeting of the Western Canada Reclamation Association, said that four proposed Western Canada water conservation projects would cost the federal government \$100,000,000 and take at least 12 years to complete.

THE FOUR PROJECTS are the Mary River dam and the Red River projects, all in Alberta, and the South Saskatchewan river project in Saskatchewan.

Work is already under way on the Mary River project in southern Alberta. The South Saskatchewan project was termed feasible in a report recently tabled in the Commons and interim engineering reports on the remaining projects are now in the hands of consulting engineers.

"IT HAS ALWAYS been known that when the farmers of the west become convinced that dry farming is too much a gamble and that irrigation has its possibilities they would demand larger projects than can be financed from the regular public reclamation fund," Mr. Gardiner said.

"The spending of this \$100,000,000 a year on PRA has tended to hasten that demand. It is here now and we are ready for it."

Paul Gallico

(Continued from Page 11)

under the skin, but the center is a mixture of glass, plaster of Paris and tinner's putty. The first time Junior burns a tennis shot down the sidewalk, he is ready for it, something is going to bust under you're going to see some weeks getting into condition. And Junior is not lagging two weeks down the sidewalk, he is still getting lubrication. When he comes out, he is ready for it, you must be all right. Hospital first and get a reservation. You're going to need it.

There will undoubtedly be horses for hire at your vacation resort. Show them unless you have been a genuine animal lover for several months. This animal is one of the worst vacation boards, purely on the basis of structure and method of locomotion. You do not need a horse in order to wind up in a traction splint with a nurse and specialist in attendance. All you have to do, if you are a soft and sedentary gent, is to sit on a couple of weeks in bed, is stay on board for an hour. Something has to give. It isn't going to be the horse.

Here's Trouble!

Have nothing to do with the ball game on the beach. This is loaded. It offers you scraped thighs (you will try to slide, you know), cut feet, lacerated knees, dislocated shoulders and sore arms.

Look for the softball game cooked up between fathers and sons in which every throw is a single into a double you will succeed only in stretching a muscle. Two weeks in bed, three weeks on crutches. Happy vacation!

Tennis is one of the most strenuous games in the world. You must be sure of your footing. You will learn the line—Nice shot there!—and apply it to anything else. It is more than a racket; it is a means of escape.

Go! you may get away with it! You limit yourself to a nine hole a day for the first four days. After five hours is a tough drill if you are not used to it, and three hours is a task for a week at the Pearly Gates.

Nature's Dangers

Take the word of an old explorer reporter and athlete, the number of places on one's chassis that can get out of kilter if one is too strenuous at the start of the summer vacation staggers the imagination. Also you will do well to regard the appearance of the beautiful country-side with caution and distrust. You are a city feller. Be careful when you exit down. Nature displays a punitive hostility towards the intruder in the form of poison ivy, poison oak, nettles, and things with spikes. An Aik Kere is constantly at war with humanity from the single-edged monogamy with the mosquito to the big four-toothed wasp and horrid things with heavy talons. It is a hundred to one that the big spider crouching in your bathroom won't be a killer. Widow, but the wary vacationer makes a routine check on it before getting in his bed. He is not a fool. If you must be athletic, the French rubber is a sure bet. If you keep away from the edge of the beach, and I assure myself of anybody carrying a note in an envelope from family listing a tall tale concerning you, you are safe. French, brother, and a safe home.

(Continued from Page 11)

Manitoba Flood Threat Overcome

WINNIPEG, July 12 (CP)—The flood menace threatening the city of Winnipeg was overcome today as the water level in the Red River dropped to a point where it was no longer a threat to the city. The water level had risen to a point where it was a threat to the city, but it has now dropped to a point where it is no longer a threat.

free this year. Races will start each day at 2:00 p.m.

THE POKER ROYAL American Show is expected to arrive in the city about mid-afternoon on Sunday. This show, the largest ever in the North American Continent, has numerous new attractions to offer this year. It has been playing to increased business at Winnipeg.

The grandstand entertainment this year has been accorded a great improvement throughout the entire program. It is a decided change from previous years, and includes in the acts leading stars of stage, screen and radio.

One of the finest features on display will be the International Salon of Photography in which pictures by leading photographers from practically every country in the world will be on view.

For the first time since the war years there will be a very large display of the latest in farm implements. The display this year is stated to be far larger than in any previous year.

THE AUTOMOBILE display in the motor building also will be worth a visit, and in the display of paintings, featuring the works of many Canadian artists, is rated as the best ever shown in the west.

The Manufacturers' building will be crowded with displays of a most interesting nature, and this year special attention has been given to making them a riot of color.

The concession row will be brimming with the usual varieties of hot and cold candies, apples, and the numerous trinkets common to fairs.

Another attraction will be the Indian exhibit, which has attracted a considerable amount of attention in Calgary, and at Brandon.

Specimen street cars and trolley bus service will be operated to the fairgrounds throughout the week.

Many Drivers Fail To Indicate Turns

"There's plenty of room for improvement," stated Const. R. D. Campbell, city police, this morning, in regards to safe driving. "The driver behind him," he added, "if the driver improves, he will not only help himself but also the driver behind him."

This was the constable's first annual convention here. William O. Mitchell of High River, Alta., a former prize school teacher and now the author of a best seller "Who Has Seen the Wind," followed his colleagues that they should "indicate."

The back porch is the best place to write a book, he said. "I've written my book from the back porch of my home in New York."

Successful authors have more than 100 problems. One is an mail. Mr. Mitchell had had to change his letter to the city. He failed to indicate his turn and was fined \$10.00. Most of the writers are "yearning authors."

Quebec Planning Installment Curb

By JACK LANGLOIS

QUEBEC, July 12 (CP)—The provincial government of Quebec is planning to install a curb on installment sales, which would limit the amount of money that can be borrowed by a consumer.

The bill, an amendment to the Civil Code, would limit the amount of money that can be borrowed by a consumer to a maximum of 10 per cent of the value of the property being purchased.

The bill would also limit the amount of money that can be borrowed by a consumer to a maximum of 10 per cent of the value of the property being purchased.

The bill would also limit the amount of money that can be borrowed by a consumer to a maximum of 10 per cent of the value of the property being purchased.

The bill would also limit the amount of money that can be borrowed by a consumer to a maximum of 10 per cent of the value of the property being purchased.

The bill would also limit the amount of money that can be borrowed by a consumer to a maximum of 10 per cent of the value of the property being purchased.

The bill would also limit the amount of money that can be borrowed by a consumer to a maximum of 10 per cent of the value of the property being purchased.

Bee-Whiskered

(Continued from Page 11)

Friday, July 12 will be the day for city and district children at the 10th annual summer fair sponsored by the Edmonton Exhibition Association, and preparations are being made to handle more than 20,000 boys and girls at the special grandstand program which will be held at 10 a.m. in the first morning.

Ten prizes valued at more than \$500 will be presented to the holders of lucky admission tickets during the grandstand show, and the lucky ticket holders will have 10 minutes to get to the judge's stand to claim their prize after their names have been called.

Admission to the grounds and the grandstand will be free, with the free admission to the grandstand being in force throughout the day. The free admission to the grandstand is limited to the morning's special performance.

FIRST AND SECOND prize will be bicycles donated by T. Eaton & Co. (Western) Ltd. and Hudson's Bay Company. The third prize will be a \$25 merchandise certificate donated by C. Woodward Ltd., and the fourth prize a certificate for a similar amount donated by the Army and Navy Department Stores Ltd.

Fifth prize will be a \$25 cash prize donated by Claude Gellinger. There will be four other cash prizes of \$10, and one merchandise certificate for \$25. The prizes are donated by E. J. Clarke, Price Andrew Ltd., British American Paint Co., and C. Woodward Ltd.

The prizes will be available to children under 16 years of age. A FEATURE of the grandstand show will be the parade of prize winners, and it is estimated that approximately 8,000 to 10,000 animals will pass in review during the parade.

To make the parade still more interesting a running commentary will accompany it, and each breed of cattle and horses will be described in detail.

The stage show for this children's show will comprise the most appropriate acts from the "Night Club Frontier" and several special acts are being devised for their amusement.

When the grandstand show is over the children will flock to the midway, and "rides of rides and shows, and the exhibits that are traditional with Midways, have been reduced in price for this occasion to stretch the kiddies' exhibition money as far as possible.

The secret is a so-called hollow globe of penicillin. Penicillin is a long-drawn form of one of the most powerful chemical explosives ever adopted for military use.

The answer appeared recently in print, buried in a report by Dr. Fritz Zwicky, 31, Wisconsin astronomer, in the "Publications of the Astronomical Society of the Pacific."

A. W. MILLER, K.C., being greeted by friends after a lengthy business trip to Eastern Canada, and Percy Hendrix, walking north on 101 street, Duncan McDonald boarding a red and white line street car at the 84 street and 104 street intersection; Malcolm Stewart walking north on 87 street; Fred Mason getting ready for a busy week at the summer fair; Elmer Stubbins conferring with a friend at 101 street and Jasper avenue.

TO VISIT SOVIET STOCKHOLM (CP)—The Swedish foreign office has opened negotiations with Russian authorities to arrange a Swedish delegation to visit the Soviet Union. The delegation will study agricultural mechanization in the Soviet Union.

AID HERE'S FAMILY LIVES—The Edmonton CP-A fund has been started for the wife and family of John Macdonald, British Columbia, who died of tuberculosis, aged 35.

Think New Explosive May Create Meteors

By Rennie Taylor

SAN FRANCISCO, July 12 (AP)—An extremely violent explosive which recently was secret has been identified by scientists as the first objects of the earth to become artificial meteors.

LIKE THE MOON, these tiny satellites are destined to circle the globe constantly, 200 to 600 miles up. They are intended to show the way toward establishment of still larger satellites which may help solve the mysteries of matter.

To shoot objects into the sky with such force that they never would return to earth requires a projectile a speed of about seven miles a second, or 28,000 miles an hour.

Leaving out atomic energy as unsuitable to present plans, there was nothing on record until lately that could give an object such terrific speed. The V-2, greatest of the rockets, is rated at 5,800 miles an hour, only one mile a second.

The answer appeared recently in print, buried in a report by Dr. Fritz Zwicky, 31, Wisconsin astronomer, in the "Publications of the Astronomical Society of the Pacific."

A. W. MILLER, K.C., being greeted by friends after a lengthy business trip to Eastern Canada, and Percy Hendrix, walking north on 101 street, Duncan McDonald boarding a red and white line street car at the 84 street and 104 street intersection; Malcolm Stewart walking north on 87 street; Fred Mason getting ready for a busy week at the summer fair; Elmer Stubbins conferring with a friend at 101 street and Jasper avenue.

Noted Swim Vet Enters Marathon

(Continued from Page 11)

TORONTO, July 12 (CP)—George Young, who first won international swimming fame 30 years ago, came back to Toronto Friday and immediately filed his official entry in the 10-mile marathon swim at the first post-war renewal of the Canadian National Exhibition.

NOW 57 AND a husky, swimmer, Young immediately headed for Roche's Point at nearby Lake Simcoe to enter training under the tutelage of Shiver McEndosh, Toronto swimmer coach.

McEndosh said the 35-year-old Young would have to shed 30 pounds in the top physical condition for the 10-mile swim in August.

It was Young's surprise victory in the \$25,000 Simcoe swim across the Cataline channel off California, Jan. 24, 1917, which led to the inauguration of distance swim as an annual Toronto sport feature.

TO DESTROY YA HT BAPTIST CHURCH, Toronto (CP)—T. B. Davis, South African swimmer, left instructions in his will for the famous two-man yacht, Westward, to be destroyed.

Plan Conference Gooseberry Lake

The Gooseberry Lake Community Conference will be held from July 18 to July 20. Purpose of the conference is to bring people to gether in a spirit of neighborliness, to prepare for new and changing conditions to assist in mobilizing the resources, leadership, and talent of the district and to enrich the values of rural living.

Among those who are expected to attend the conference are: the Brownlee, K.C. vice-president of the

United Grain Growers; George Church, president, United Farmers of Alberta; R. G. Hiltner, agricultural secretary, department of extension, University of Alberta; Lewis Hutchinson, chairman, Alberta Federation of Agriculture; Miss Priscilla Newlin, district home economist, provincial department of agriculture; B. Russell, director of water resources for Alberta; D. B. Scott, assistant professor of physics, University of Alberta; E. H. Strickland, professor of entomology, University of Alberta; and A. R. R. Tweedie, assistant professor of extension, University of Alberta.

Three Dogs Die; Believed Poisoned

Three dogs died suddenly Thursday afternoon in the vicinity of 128th avenue and 125th street, according to city police, who said they believed poisoning was the cause. The owners have been advised to have autopsies performed in order to ascertain the cause of death.

James S. Smith, 12912 125th street, reported their pets had died, and also said one other dog in the neighborhood was dead.

It was believed that the dogs may have been poisoned by a new type of weed killer but city parks department advised that the latest type out will not poison dogs.

Bicycle Trip

The Canadian Youth Hostellers are planning to bicycle to Lake Edson from Edmonton on Saturday, July 19, returning the next day. All members, and would-be members, wishing to attend should contact Eileen Smith, phone 84062, before Wednesday.

VISITING CITY

Grant MacDonell, president and chief executive officer of Canadian Pacific Air Lines at Montreal, arrived back in Edmonton Friday morning, after spending a two-day holiday at Seba Beach.

Why Grow Old?

ACTRESS ADELE JERGENS in her profession knows the advantages of scientifically counting calories to keep slim and fit. Read what Josephine has to say today on this subject.

Today I am going to give you a new version of a happy home. A recent letter from a reader says: "Three months ago my husband and I were very happy. He weighed 260 pounds and had a 46 inch waist line. Since he is only 24 years old,

he was becoming distressed by this excess weight. Consequently, we decided to plan a reducing diet for him and to use some good waist slimming exercises. By using many of your exercises and diets and a lot of will power, he has lost 40 pounds and his waistline now measures 38 inches. Just last week, after a physical exam by our family physician, my husband was told that the loss of weight has improved his health and that it is perfectly safe for him to lose another 30 pounds more."

It seems too bad that so many men endanger their health by excess weight. These extra pounds become more and more hazardous

Your Baby and Mine

By Myrtle Meyer Eldred
As I stood in a department store waiting for some purchases I heard a baby crying. I looked like a young baby and when I looked around it was just about four months old, but dressed like a "big" girl in a colored, cotton dress, a bonnet and shoes.

It was a warm day and the baby was so sleepy and hot that as she cried she rubbed her hands back and forth across her red eyes.

The young mother, nonchalant and uninterested, hung over the counter and looked at ribbon bows.

As birthdays accumulate, overweight places a tremendous strain on every organ in the body and shortens life expectancy by years.

I am sure that men as just as interested in living a long time and just as anxious for good vitality as women are, but they are not so conscious of the figure control angle and, therefore, procrastinate even more than women do.

Actually, I think many men do dislike having a big window and too much weight, but feel silly in admitting this. I cannot imagine why they should feel this way because health is at stake and then, too, their wives like them handsome just as they wish their wives to be main attractive.

A man requires more calories to a reducing diet than a woman does because he has a larger build. The average woman needs from 1100 to 1400 calories a day when reducing. While the average man should add another 600 calories to his daily intake. If he is quite tall or heavily built he can eat even more and yet lose weight.

If you wish to have my leaflet No. 20, "Short Routine for Men," send a stamped, self-addressed envelope with your request to Josephine Lowman in care of The Edmonton Bulletin.

Every Day It Barges in Day at The ARMY & NAVY

Say 100 Killed In China Week

HONG KONG, July 12.—(AP)—The Central China News said today that more than 200 persons were killed and scores injured north of Canton Thursday when a passenger train jumped the tracks and plunged into a river.

Donna Mae, one nine months daughter of Mr. and Mrs. H. A. Merritt of 8520 120 avenue.

The "Summer" may be had by sending a stamped, self-addressed envelope with your request to Myrtle Meyer Eldred in care of The Edmonton Bulletin.

Lingnan Salon Is Newest, Most Modern Dining Room Opened In City

Combined Restaurant, Store Depot For Chinese Exports

By a leap of several architectural years into the modern future of refined eating and shopping atmosphere, Edmonton's latest will advance by leaps in this service when doors of the spacious and richly-appointed Lingnan Dining Salon open to the public at 10132 97 street, one-half block north from Jasper Ave.

The Sun-Importers and Exporters, a firm dealing in whole sale and retail merchandise from and to China and other parts of the Orient.

Credit for the distinctiveness and integrity of the building's entire plan, design and appointments goes to Neil C. McKernan, Edmonton architect.

Phillip Pen recently in business at Vancouver, is proprietor and general manager of the new establishment.

\$10,000 Building
He said the building was completed in 14 months at a cost of approximately \$10,000. Providing overseas markets are favourable and currencies are regular, it is the intention of his firm to keep a running stock of Oriental merchandise to an approximate value of \$30,000.

Heir Construction Company of Edmonton were contractors who erected the building.

In the dining salon a small banquet section seating 30 persons is separated by removable section divisions topped by laterally fluted translucent glass. For larger club gatherings these may be removed extending the seating capacity to 120.

The warm red-tinted mottled marbled covering the floor of the entire salon from wall to wall is supported by steel framework with solid underfooting topped by selected lacquer and glass.

Soft green carpeting lines the full length of the salons side which is flanked on either side by open tables, each with tastefully chosen chairs comfortably upholstered in tones of red and green.

Contributing by far the greatest share of natural brightness to an already beautiful and effective interior color tone is the massive east end window, which occupies practically the full width and length of the building from the second floor to the ceiling.

Restful Colors
As with the equally massive steepled level windows it is reinforced with divisions made of machined aluminum.

Also of machined aluminum are the ultra modern drop lights which diffuse indirect illumination from a sparkling white ceiling to side walls finished in a restful tone achieved by combining ivory with the faintest tint of gentle yellow.

The ceiling is gridded in square-embossed chromium-plated metal, a narrow fluted crown thus relaxing monotony of white ceiling.

Oriental tapestries are spaced evenly on the walls and ceiling, surrounded by copper-colored tapestries of natural dyes from the same window.

Cherished, chandeliered chairs and other appointments await the patron in the foyer which is next door to the dining.

CONGRATULATIONS
TO
LINGNAN.

New Brick Building Houses Cafe

Above is a view of the new Lingnan Dining Salon, 10132 97 st. saluted brick construction and is thoroughly modern in every respect, saluted brick construction and is thoroughly modern in every respect.

to the inviting brightness of the great windows.

Mr. Pen explained his choice of Lingnan as a name for his salon as being that of China's former dining establishment. A chain of which operates in many principal cities of the land where he was born.

Modern Kitchen
Efficiency has not been sacrificed for design. The kitchen is a masterpiece of modern design, with modern windows to the west end and fluorescent artificial lighting, one of the many pieces of modern equipment is an automatic dishwasher, sterilizer and dryer.

As in almost every case of something entirely new and brilliant the deception frequently beguiles the reality, but it is ventured that it would indeed amuse a person who would not be adversely impressed with this latest and most modern of Edmonton's exclusive dining salons.

Of the importing and exporting and of Mr. Pen's business it was suggested he must have had confidence that an improvement would be forthcoming in China's war-torn domestic affairs.

Said Mr. Pen: "I believe China will prosper beyond if a pro-democratic war is not stopped by democratic imperialism."

He said he was confident that there would soon be a solution to a means of ending her 15 years continuous war and internal conflict, and that China would see rapidly in economic recovery to a restoration of normal international trade.

Restless Merchandise
A large shipment of merchandise from China already is in the custom warehouses in Edmonton, cleared for delivery to the new establishment when the section open for business. Further fixtures and shelving are expected shortly after Saturday's opening of the dining salon.

His importing business will handle everything from exotic Oriental footgear to ready made wearing apparel (kimono, gowns and dresses) hand woven Chinese rugs, and among other commodities raw and grained silks.

Of the latter mentioned this was even as evidence that China intends making a strong bid for a share of the market which in previous years was almost totally exclusive to Japan.

Many advances have been made in silk production in China, he said, and her products are fully equal to those marketed by Japan when

that country was at its best from a point of international demand.

Placement of the new establishment will be fitted out as a secret room and club center for members of Edmonton's Chinese community, explained Mr. Pen, himself a Canadian by naturalization.

Questioned about himself, Mr. Pen was modest in reply but it was learned he arrived in Canada with very little money but with much ambition. After working at various odd jobs at the west coast he moved to Loughborough where he went to school to improve his self-education in English.

Later he moved to Hingham and took over a hotel. In this phase of his history he believes he shares uniqueness with another citizen of Chinese ancestry in being granted a license by the province to operate a beverage parlor in connection with his hotel.

During the war years he operated a taxi and gave service from the town of Vancouver to the army camp training centre, which later became a prisoner-of-war internment camp for German officers.

Mr. and Mrs. Pen have two sons and a daughter. Jim will assist his father in the new business venture. Norman will begin high school shortly. Valerie is finishing her course at the University of Washington and after graduation expects to take up journalism.

Railroad To Cut African Interior

NEW YORK, (U.S.A.)—A new African railroad, to be built by British, will connect British West Africa with Rhodesia by cutting through the heart of the dark continent.

The *Gazette de Lourenco* reports that the new "steel trail" will go through the mineral wealth of the Congo river basin and will touch at French, Belgian and Portuguese colonies. The British government is

currently conducting negotiations with the three powers concerning details of way.

Although primarily a commercial enterprise—the new railway will serve areas containing gold, copper, diamonds, manganese and bauxite deposits, water-power stations and huge stands of timber—the project will also have military value. It will provide a full overland link between strategic West Africa empire thousands of U.S. Canadian supply planes landed to turn the tide at St. Albans and the important uranium, copper and gold-producing region of Katanga, Rhodesia and Transvaal.

DOT NIGHT WORK

ALTHOUGH Nipper, the Teenie Weenie watch bug, was the best ant chaser the little people ever owned, he was vicious and he had bitten almost every resident of the tiny village. The Chinaman, who looked after the beetle, had promised to get rid of him. But that proved to be a most difficult task. The Chinaman had led the beetle a long way from the village and removed the leash when the bug was interested in chasing some ants. Then the Chinaman sneaked off and ran for home as fast as he could, hoping the beetle would not find its way back. When the Chinaman reached the teapot where he lives and keeps the Teenie Weenie laundry, he found Nipper sunning himself on the laundry steps. The Chinaman tried several more times to lose the bug, but each time the insect came back.

The Cowboy and the Turk carried the bug off in a small match box. They loaded the box into the Teenie Weenie cart and drove Skippy, the chipmunk, a long distance from the village. They dumped the bug out and then drove home at a furious rate, but the beetle used his wings and reached the village first. After that the Chinaman tied Nipper to the English walnut shell that served the insect for a bug house until he could think up some plan for ridding himself of the pest. The tenderhearted Chinaman didn't want to hurt the bug and he had almost despaired of losing it when he received encouraging help from an unexpected source.

Late one afternoon the Chinaman heard a com-

The TEENIE WEEENIES

BY WAM DONAHEY

motion outside the teapot. He rushed to the door, where he saw a big toad blinking hungrily at Nipper. The bug was tugging at his leash and snapping his big pinchers angrily at the toad. The beetle kept lunging at the toad, trying to attack it. Suddenly the leash broke and the bug leaped straight at the toad, who snapped up the beetle in an instant. The Chinaman turned away and shut the door, for he didn't care to see the end of his watch bug.

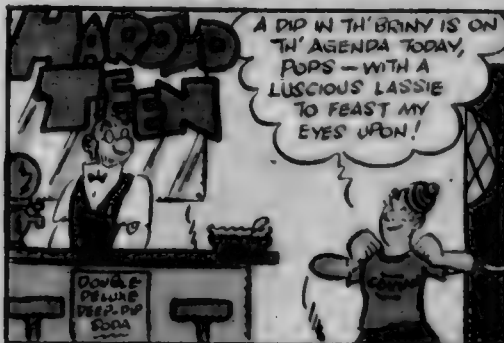

A few minutes later the Cook, who had been on

his way to the teapot to borrow some salt, told the Chinaman what he had seen of the fight between the toad and the beetle.

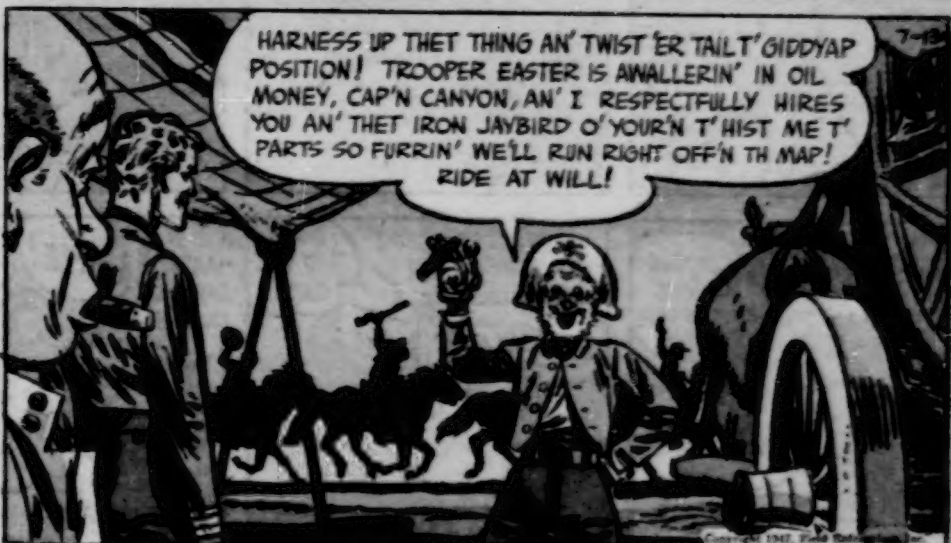

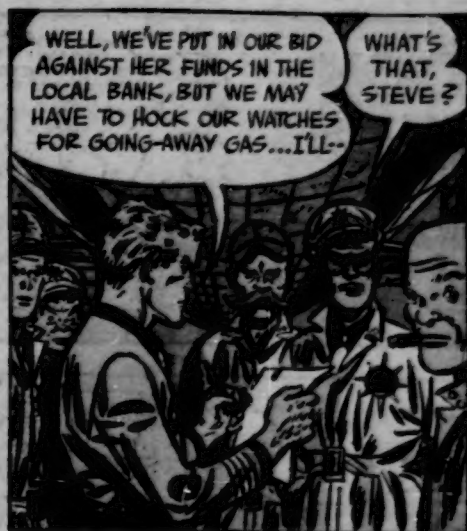

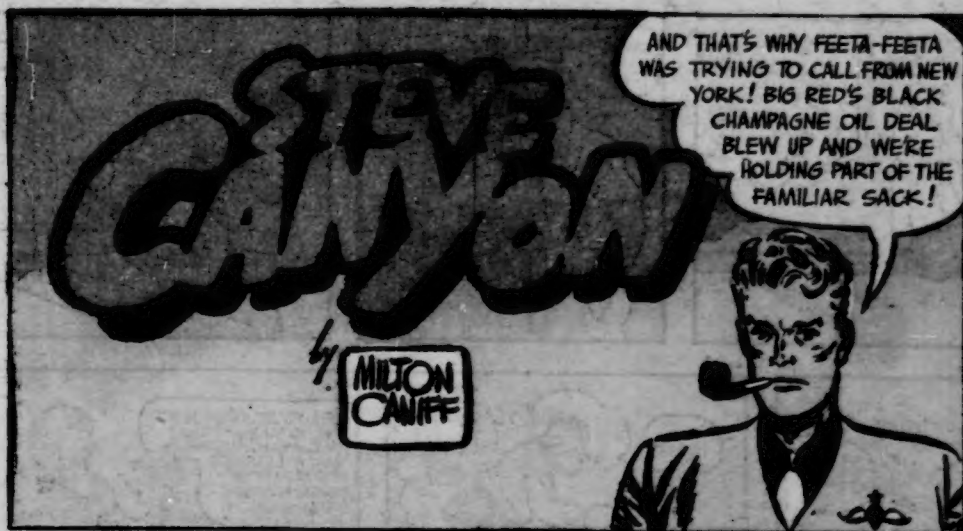

"Is Nipper gone?" inquired the Chinaman sadly.

"No," answered the Cook. "The toad tried to swallow him, but Nipper was too much for him and the toad spit him out."

The Chinaman opened the door and peered out. The toad was gone and Nipper sat calmly on the steps.
